

1. What is the exam structure for Mimamsa Prelims?

Prelims is a subjective type exam spanning four subjects - Physics, Chemistry, Mathematics and Biology. Knowledge of 11-12 grade science is sufficient for paper. There is no fixed syllabus. There are no sample papers provide for the same.

2. Is there a participation fee for Mimamsa?

No. Mimamsa is completely free.

3. Is accommodation/food/travel provided by Mimamsa?

No. Participants must arrange for their own accommodation and pay for their own travel expenses. Team Mimamsa will not reimburse or provide for any expenses to the participants.

4. One of our team members dropped out. What do we do?

If the member drops out before the day of Prelims, you can try finding a replacement, and change the member names on the 'Google Form' that was used to register. Otherwise, the replacement can be done and intimated to the centre coordinators on the day of Prelims. Three member teams would be allowed to write the exam. In the case there is a choice between allowing a 3 member team and a 4 member team to write the exam, the 4 member team will be given preference.

5. Will participation certificates be given?

Yes. All participants will receive a participation certificate. Certificates will only be given after the Prelims paper has been duly submitted. In case the participants need to leave early, they should refrain from asking for blank certificates.

6. What documents do we need to show on day of Mimamsa?

All participants should have their college IDs. Bonafide certificate from the college is NOT needed.

For further details, participants can contact their respective centre coordinators.
